## MEDICAL FEE DISPUTE RESOLUTION FINDINGS AND DECISION

### PART I: GENERAL INFORMATION

Requestor Name and Address:	MFDR Tracking #: M4-04-5611-01
VISTA MEDICAL CENTER HOSPITAL 4301 VISTA RD PASADENA TX 77504	DWC Claim #:
	Injured Employee:
Respondent Name and Box #:	Date of Injury:
ROYAL INDEMNITY CO Box #: 11	Employer Name:
	Insurance Carrier #:

### PART II: REQUESTOR'S POSITION SUMMARY

**Requestor's Position Summary:** "Vista Medical Center Hospital charges the above-referenced services at a fair and reasonable rate. Specifically, these rates are based upon a comparison of charges to other Carriers and the amount of reimbursement received for these same or similar services. The amount of reimbursement deemed to be fair and reasonable by Vista Medical Center Hospital is at a minimum of 70% of the billed charges. This is supported by the Focus managed care contract. This managed care contract supports Vista Medical Center Hospital's argument that the usual and customary charges are fair and reasonable and at the very minimum, 70% of the usual and customary charges is fair and reasonable."

**Amount in Dispute:** \$6,246.97

### PART III: RESPONDENT'S POSITION SUMMARY

**Respondent's Position Summary:** "As you can see from the attached documentation, the healthcare provider billed \$15,273.42 for a RFTC of median branch with fluoroscopy. On April 22, 2003, the Respondent made a reduction in the amount of \$13,037.42 as various service were technical components of the billed procedure and paid \$2,236.00 which represents the usual and customary allowance for such a procedure. On October 21, 2003, the Respondent stood by its original determination and refused to recommend any additional allowance. It should also be noted that the Medical Review Decision has recently upheld the Respondent's denial of another procedure performed by Requestor based on the same rationale."

### PART IV: SUMMARY OF FINDINGS

Date of Service	Denial Code(s)	Disputed Service	Amount in Dispute	Amount Due
03/04/2003	100, 500, M	Outpatient Surgery	\$6,246.97	\$0.00
<b>Total Due:</b>				\$0.00

### PART V: REVIEW OF SUMMARY, METHODOLOGY AND EXPLANATION

Texas Labor Code §413.011(a-d), titled *Reimbursement Policies and Guidelines*, and Division rule at 28 Texas Administrative Code §134.1, titled *Use of the Fee Guidelines*, effective May 16, 2002 set out the reimbursement guidelines.

This request for medical fee dispute resolution was received by the Division on January 26, 2004. Pursuant to Division rule at 28 TAC §133.307(g)(3), effective January 1, 2003, 27 TexReg 12282, applicable to disputes filed on or after January 1, 2003, the Division notified the requestor on 01/30/2004 to send additional documentation relevant to the fee dispute as set forth in the rule.

- For the services involved in this dispute, the respondent reduced or denied payment with reason code:
  - 100 – Included in another billed procedure
  - 500 – Reimbursement amount based on U&C allowance.
  - M – No additional allowance recommended.

2. This dispute relates to services with reimbursement subject to the provisions of Division rule at 28 TAC §134.1, effective May 16, 2002, 27 TexReg 4047, which requires that "Reimbursement for services not identified in an established fee guideline shall be reimbursed at fair and reasonable rates as described in the Texas Workers' Compensation Act, §413.011 until such period that specific fee guidelines are established by the commission."
3. Texas Labor Code §413.011(d) requires that fee guidelines must be fair and reasonable and designed to ensure the quality of medical care and to achieve effective medical cost control. The guidelines may not provide for payment of a fee in excess of the fee charged for similar treatment of an injured individual of an equivalent standard of living and paid by that individual or by someone acting on that individual's behalf. It further requires that the Division consider the increased security of payment afforded by the Act in establishing the fee guidelines.
4. Division rule at 28 TAC §133.307(g)(3)(B), effective January 1, 2003, 27 TexReg 12282, applicable to disputes filed on or after January 1, 2003, requires the requestor to send additional documentation relevant to the fee dispute including "a copy of any pertinent medical records." Review of the submitted documentation finds that the requestor has not provided copies of all medical records pertinent to the services in dispute. Although the requestor did submit a copy of the operative report, the requestor did not submit a copy of the anesthesia record, post-operative care record, or other pertinent medical records sufficient to support the services in dispute. The Division concludes that the requestor has not met the requirements of Division rule at 28 TAC §133.307(g)(3)(B).
5. Division rule at 28 TAC §133.307(g)(3)(D), effective January 1, 2003, 27 TexReg 12282, applicable to disputes filed on or after January 1, 2003, requires the requestor to provide "documentation that discusses, demonstrates, and justifies that the payment amount being sought is a fair and reasonable rate of reimbursement." Review of the submitted documentation finds that:
  - The requestor's position statement asserts that "Vista Medical Center Hospital charges the above-referenced services at a fair and reasonable rate. Specifically, these rates are based upon a comparison of charges to other Carriers and the amount of reimbursement received for these same or similar services."
  - Documentation of the comparison of charges to other carriers was not presented for review.
  - Documentation of the amount of reimbursement received for these same or similar services was not presented for review.
  - The Division has previously found that "hospital charges are not a valid indicator of a hospital's costs of providing services nor of what is being paid by other payors," as stated in the adoption preamble to the Division's former *Acute Care Inpatient Hospital Fee Guideline*, 22 TexReg 6276 (July 4, 1997). It further states that "Alternative methods of reimbursement were considered... and rejected because they use hospital charges as their basis and allow the hospitals to affect their reimbursement by inflating their charges..." 22 TexReg 6268-6269. Therefore, the use of a hospital's "usual and customary" charges cannot be favorably considered when no other data or documentation was submitted to support that the payment amount being sought is a fair and reasonable reimbursement for the services in dispute.
  - In the alternative, the requestor asks to be reimbursed a minimum of 70% of billed charges, in support of which the requestor states that "The amount of reimbursement deemed to be fair and reasonable by Vista Medical Center Hospital is at a minimum of 70% of the billed charges. This is supported by the Focus managed care contract. This managed care contract supports Vista Medical Center Hospital's argument that the usual and customary charges are fair and reasonable and at the very minimum, 70% of the usual and customary charges is fair and reasonable."
  - The requestor has provided select exhibit pages from the alleged managed care contract referenced above; however, a copy of the contract referenced in the position statement was not presented for review with this dispute.
  - The requestor submitted a letter of clarification dated July 30, 1992 indicating a change in reimbursement to the above referenced contract, stating in part that "services rendered to eligible Beneficiaries will be considered at 80% of the usual and reasonable charge which is equal to the lesser of the actual charges billed by HCP; OR the eightieth (80th) percentile for charges for such services as set forth in the current Medical Data Research Database."
  - No data or information was submitted from the Medical Data Research database to support the requested reimbursement.
  - No documentation was presented by the requestor to support that the referenced contract was in effect at the time of the disputed services.
  - The requestor's position statement further asserts that "amounts paid to healthcare providers by third party payers are relevant to determining fair and reasonable workers' compensation reimbursement. Further, TWCC stated specifically that managed care contracts are fulfill the requirements of Texas Labor Code Section 413.011 as they are 'relevant to what fair and reasonable reimbursement is,' they are relevant to achieving cost control,' they are relevant to ensuring access to quality care,' and they are 'highly reliable.' See 22 TexReg 6272. Finally, managed care contracts were determined by the TWCC to be the best indication of a market price voluntarily negotiated for medical services."
  - While managed care contracts are relevant to determining a fair and reasonable reimbursement, the Division has

previously found that a reimbursement methodology based upon payment of a percentage of a hospital's billed charges does not produce an acceptable payment amount. This methodology was considered and rejected by the Division in the adoption preamble to the Division's former *Acute Care Inpatient Hospital Fee Guideline*, which states at 22 Texas Register 6276 (July 4, 1997) that:

"A discount from billed charges was another method of reimbursement which was considered. Again, this method was found unacceptable because it leaves the ultimate reimbursement in the control of the hospital, thus defeating the statutory objective of effective cost control and the statutory standard not to pay more than for similar treatment of an injured individual of an equivalent standard of living. It also provides no incentive to contain medical costs, would be administratively burdensome for the Commission and system participants, and would require additional Commission resources."

Therefore, a reimbursement amount that is calculated based upon a percentage of a hospital's billed charges cannot be favorably considered when no other data or documentation was submitted to support that the payment amount being sought is a fair and reasonable reimbursement for the services in dispute.

- The requestor did not support that payment of the requested amount would satisfy the requirements of Division rule at 28 TAC §134.1.

The request for additional reimbursement is not supported. Thorough review of the documentation submitted by the requestor finds that the requestor has not demonstrated or justified that payment of the amount sought would be a fair and reasonable rate of reimbursement for the services in dispute. Additional payment cannot be recommended.

6. The Division would like to emphasize that individual medical fee dispute outcomes rely upon the evidence presented by the requestor and respondent during dispute resolution, and the thorough review and consideration of that evidence. After thorough review and consideration of all the evidence presented by the parties to this dispute, it is determined that the submitted documentation does not support the reimbursement amount sought by the requestor. The Division concludes that this dispute was not filed in the form and manner prescribed under Division rules at 28 Texas Administrative Code §133.307(g)(3)(B) and §133.307(g)(3)(D). The Division further concludes that the requestor failed to support its position that additional reimbursement is due. As a result, the amount ordered is \$0.00.
